SUMMARY

Highly motivated and quality-driven full-stack web developer with a Bachelor's degree in Computer Science. Experienced in developing comprehensive software solutions, from user-friendly interfaces to robust back-end systems. Adept at quickly learning new technologies and collaborating effectively in team environments to deliver innovative solutions.

EXPERIENCE

Web Application Developer

KALUNKOPI

October 2024 - December 2024

- Architected and launched kalunkopi.shop, implementing secure payment processing and inventory management systems.
- Established and optimized multi-channel e-commerce presence across Shopee and Lazada platforms.
- Developed integrated sales and inventory tracking system, enabling real-time stock monitoring across physical and digital channels..

Founder & Lead Developer

Aetherio IT Solutions

June 2023 - July 2024

- Led digital transformation for agricultural processing clients, achieving 30% operational efficiency improvement.
- Designed and implemented comprehensive POS and inventory system, increasing sales tracking accuracy by 25%.
- Established software development best practices, reducing bug reports by 40%.
- Managed client relationships and technical project delivery for multiple concurrent projects.

Web Application Developer

WMSU SERDAC

February 2024 - June 2024

- Engineered research and data analytics web applications using PHP, focusing on secure data management.
- Implemented robust security protocols to protect sensitive research data.
- Developed automated data processing workflows to streamline research analytics..

Web Developer

JTravel Ticketing Services

June 2022 - November 2022

- Developed integrated ticketing platform with payment gateway integration, increasing online bookings by 50%.
- Created custom analytics dashboard for tracking sales metrics and customer behavior.
- Implemented automated reporting system, improving data accuracy by 35%..

Software Engineer Intern

Senti.AI

August 2021 - October 2021

- Collaborated with engineering team on AI-powered solutions.
- Implemented automated testing processes and bug tracking systems.
- Contributed to code quality improvement initiatives..

PROJECTS

Centralized Data Management System

Unbound Zamboanga

- Implemented Synology NAS-based solution for efficient data handling.
- Established backup and disaster recovery protocols.

Enterprise Resource Planning Systems

- Developed comprehensive ERP solutions for EJN Rubber, EN Coffee, and New Trading Center.
- Implemented secure transaction processing and inventory management.
- Integrated real-time reporting and analytics dashboards..

Face Recognition System

WMSU

- Designed and implemented campus-wide attendance tracking system.
- Utilized OpenCV and Python for facial recognition.
- Integrated with MySQL for secure data management..

EDUCATION

Bachelor of Science in Computer Science

Western Mindanao State University • 2018 - 2022 • 1.78/4.0

CERTIFICATIONS

Google Cloud Fundamentals Core Infrastructure Certification

2021

Certificate of Recognition, WMSU College of Computer Studies

Most Outstanding Software Developer, Software Engineering Course

2021

SKILLS

Frameworks & Libraries: Laravel, Bootstrap

Databases: MySQL, PostgreSQL

Tools: Git, Figma, Adobe XD

Languages: PHP, JavaScript, Python, C#, HTML, CSS
